SIMPLIFIED COMMUNICATION

HP Poly creates premium audio and video products so you can have your best meeting and collaboration – anywhere, anytime, every time. Our headsets, video and audio conferencing products, desk phones, and software are beautifully designed and engineered to connect people with incredible clarity. They work seamlessly with leading hybrid work platforms. And our union with HP means they also are part of an ecosystem of innovative and easy-to-use solutions and services that simplify hybrid working.

Why just show up when you can stand out?

CONFERENCE ROOM

CAMERAS AND CONTROL PANELS

IDEAL FOR

Medium to large rooms looking for a smart camera experience with advanced Poly DirectorAI technology.

HP POLY STUDIO E70

- Poly DirectorAI smart camera technology with pinpoint-accurate automatic framing modes
- Dual cameras with 4K Ultra HD sensors
- Connect over USB or Ethernet for simplified setup and flexible camera placement
- Certified for Zoom Rooms Intelligent Director, offering AI-enhanced in-room views that capture perfect angles, ensuring everyone feels part of the conversation*
- Supported with HP Poly Studio G62 and HP Poly Studio X52/X72 for USB or Ethernet connection, as well as HP Poly Studio Room Compute for USB connection

IDEAL FOR

Organizations looking for a best-in-class smart mechanical pan/tilt/zoom camera for large conference rooms, training rooms or classrooms.

HP POLY STUDIO E60

- 12x optical zoom expands reach and coverage in large rooms
- 4K UHD 8MP camera renders detailed and sharp images
- Dynamic video experience driven by Poly DirectorAI presenter tracking and group framing
- Easy to install on a monitor, wall or ceiling, and has built-in gravity sensor for inverted mounting
- Supported with HP Poly Studio G62 and HP Poly Studio X52/X72 for USB or Ethernet connection, as well as HP Poly Studio Room Compute for USB connection

IDEAL FOR

All conference rooms looking for room scheduling and meeting control.

HP POLY TC10

- Use outside the room for scheduling, or inside the room as a video and room controller
- Intuitive, high-resolution 10-inch touch display
- Sleek design and a single cable for both power and connectivity
- Large, multi-colored LED lights to show mute status or room availability
- Designed for your environment with white and black color options
- Adaptable wall and glass mounting options

*WHEN 2 OR 3 CAMERAS ARE PAIRED WITH QUALIFIED ZOOM ROOMS PC

IDEAL FOR

Rooms requiring a modular and scalable premium audio solution.

HP POLY STUDIO A2 AUDIO BRIDGE

- Simple plug-and-play solution for advanced audio connectivity with next generation Poly video devices[1]
- Seamlessly expands audio coverage in any room, with up to 32 audio input channels supported
- Hassle-free deployment via HP Poly StudioNet[2], using a single, standard Ethernet cable
- Optimal positioning anywhere in the room with included magnetic mount

HP POLY STUDIO A2 TABLE MICROPHONE

- Precise audio capture with 4 microphone elements that capture speech without distraction
- Boost audio pickup by effortlessly daisy-chaining up to 8 Studio A2 Table Microphones[3]
- Immaculate setup with discreet cable management and versatile mounting options.
- Unique, elegant design and compact form factor available in black and white.

1 HP Poly Studio A2 Audio Bridge is compatible with Poly Studio G62, V72, X72, V52, X52 and X32. HP Poly Studio A2 Audio Bridge is not backward compatible. HP Poly Studio X70/50/30, USB and Poly G7500 will continue to use the existing analogue and IP expansion microphones, respectively.

2 HP Poly StudioNet connects multiple devices over Ethernet, using built-in code to enable direct communication with compatible Poly devices via approved switches and the video device's LLN port.

3. HP Poly Studio A2 Table Microphone support varies by product: Poly Studio G62 supports up to 8; Poly Studio V72/X72 up to 4; Poly Studio V52/X52 up to 4; Poly Studio X32 up to 2; Poly Studio V12 supports 1.

IT TOOLS

MANAGEMENT, MONITORING, & INSIGHTS

HP POLY LENS

IDEAL FOR

Manage and configure HP collaboration devices at scale with centralized control, proactive monitoring, and meaningful insights that keep spaces, rooms, and devices healthy and ready.

- Stage, pre-configure, and deploy devices quickly with automated onboarding and advanced provisioning
- Manage settings, features, and updates at scale with precise, centralized control
- Monitor device health in real time and resolve issues before they disrupt meetings
- Understand how people, devices, and spaces work together using utilization and performance insights
- Securely manage devices from a cloud platform that scales with your organization

HP POLY LENS PRO FOR ROOMS

IDEAL FOR

High-value rooms requiring elevated management, advanced monitoring, remote room access, and rich data visualizations.

- Improve customer experiences and support through remote room access and device control
- Businesses gain a detailed understanding of room-based usage, allowing for informed collaborative investment decisions
- IT administrators can streamline management with integration into existing or new monitoring and reporting tools, such as Power BI
- Integrate into top collaboration platforms for better manageability, including Microsoft 365 Calendar and Zoom Device Management
- Explore these premium features in Poly Lens Pro for Rooms at no cost during a 90-day trial
- Step-up to value added Poly+ Enterprise and Elite Support Services

HP WXP COLLABORATION

IDEAL FOR

IT leaders who need greater visibility across their collaboration estate, including multi-vendor devices, networks, applications and infrastructure, and to optimize collaboration technology, meeting spaces, and real estate investments.

- Gain end-to-end visibility across the collaboration ecosystem by connecting room, meeting, device, application and employee experience data into a single view
- Identify and resolve collaboration issues faster with proactive insights that help detect recurring problems, reduce troubleshooting time and minimize disruptions
- Connect meeting, room, device and employee experience data to pinpoint root causes and prioritize improvements that will have the greatest impact
- Make smarter technology refresh and workplace investment decisions using real utilization, adoption and performance data
- Improve employee collaboration experiences by monitoring meeting quality trends, identifying friction points and creating more reliable and productive meeting environments
-
